Definitions

Open Burning - Any burning that takes place in an unenclosed space. Includes burning of leaves, grass clippings, garbage pits, construction debris, fallen trees, crop residue or hay land, sloughs and bonfires.

Ash Producing - Fires associated with recreational activities like camping, fishing, or hunting where the purpose for the fire may be cooking, warmth, or ambiance and are under observation until extinguished. Includes wood patio fireplaces, wood fire pits, wood fired grills, chimneas, and charcoal grills.

Cooking / Flame Devices - Manufactured device that controls or confines the fire to a degree it is safe when not under continued observation. This category includes gas fired grills, gas camp stoves, pellet smokers, gas fire pits, and gas fireplaces.

Smoking - Practice in which a substance is burned and the resulting smoke is breathed in. Includes cigarettes, cigars, pipes, and bongos for which tobacco or other substances is smoked.

Fireworks - A class of explosive pyrotechnic devices used for aesthetic, cultural, and religious purposes that are generally lit to explode or travel, emit sparks, or smoke. Includes, firecrackers, rockets, shells, smoke bombs, and sparklers. Prohibited in city limits.

Equipment/Vehicles - Heavy-duty vehicles wheeled or tracked and all other vehicles made to traverse land. Includes farm, construction, mining, oil extraction, cars, trucks, utility vehicles (4 wheelers), motorcycles, and motor homes.
